

You are invited to a Circular Economy Workshop to help create Australia's most circular valley

As a leader in this community, we invite you to join us for a day exploring what becoming more circular could mean for everyone in the Bega Valley.

Following an overview of circularity and the Regional Circularity Co-operative's vision, your views will be sought on what a circular future for the Bega Valley could look like and how you think we should get there.

Circularity transition experts from CSIRO and others will be in the room to both guide and inform the discussion. A full agenda will be provided ahead of the event.

Given a broad cross-section of the Bega Valley's communities will be present, we will also allow plenty of time for networking and collaboration discussions.

When: Wednesday 28th May 2025, 9.00am – 5.00pm. Lunch and refreshments will be provided.

Where: Bega Valley Commemorative Civic Centre, Zingel Place, Bega.

Format: The day will involve a series of facilitated small group workshop sessions.

Numbers are strictly limited, so please RSVP by 21st May at:
